1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 11, 15, 16 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Miess. The embodiment shown in Figs 4, 5 and 7 has a bottom panel 2, lower side panels 3, 4 and upper side panels 5, 6. The claimed bridge reads on the structure including tabs 70 and 72.

3. Claims 1, 14-16 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Detzel. The claimed bridges are portions of top wall 4 that extend between the edges of apertures 8.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 15 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 15 appears to be incomplete in that it appears to be a Jepson type claim without the improvement being indicated. Claim 18 appears to be dependent on two claims.

6. Claims 2-10, 12, 13 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
